

**Thermobalancing Therapy
and
Dr Allen's Device**

Clinical trial for BPH (2013-2015)

**Effective physiotherapeutic treatment
for benign prostatic hyperplasia**

Dr Simon Allen, MD, PhD

Clinical trial demonstrates efficacy of Dr Allen's Device for men with BPH

Benign prostatic hyperplasia (BPH),
124 men with BPH

Supervised by
Professor Ivan Aghajanyan
Head Urologist of Armenia

Conducted at the Mikaelyan
Institute of Surgery, Yerevan State
Medical University, 9 Asratian St,
Yerevan, 0052, Armenia

Dynamics of some changes in BPH
symptoms, prostate volume and Q-
max index, see below

Clinical Trial: The dynamics of the urinary symptoms in 124 men with BPH

The treatment with Dr Allen's Device significantly decreases urinary symptoms.

Clinical Trial: The dynamics of the prostate volume in 124 men with BPH

The treatment with Dr Allen's Device significantly reduces enlarged prostate volume.

Clinical Trial: The dynamics of uroflowmetry Q-max index in 124 men with BPH

The treatment with Dr Allen's Device significantly increases uroflowmetry Qmax index.

Advantages of Dr Allen's Device and Thermobalancing Therapy

- Effective
- Non-invasive
- Cause no side effects
- Easy to use
- No hospitalisation
- Low cost solution

Conclusion:

The results of the clinical trial for BPH have shown that Thermobalancing therapy / Dr Allen's Device is able to reduce the prostate volume and improve quality of life in men with BPH.
