

# **Thermobalancing Therapy and Dr Allen's Device**

## **Clinical trial on BPH (2013-2015)**

**Effective physiotherapeutic treatment  
for benign prostatic hyperplasia**

**Dr Simon Allen, MD, PhD**

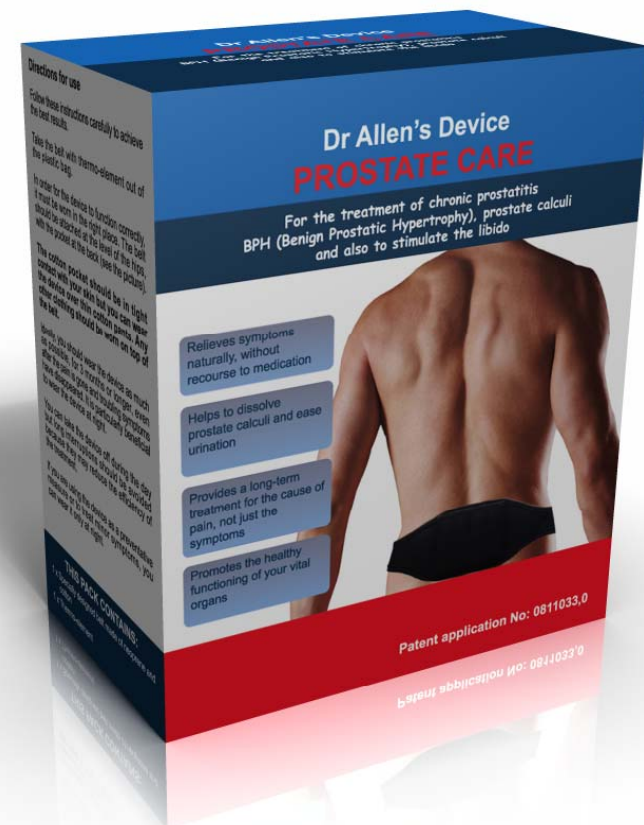

# Clinical trial on benign prostatic hyperplasia - BPH demonstrates efficacy of Dr Allen's Device

Benign prostatic hyperplasia (BPH), 124 men with BPH

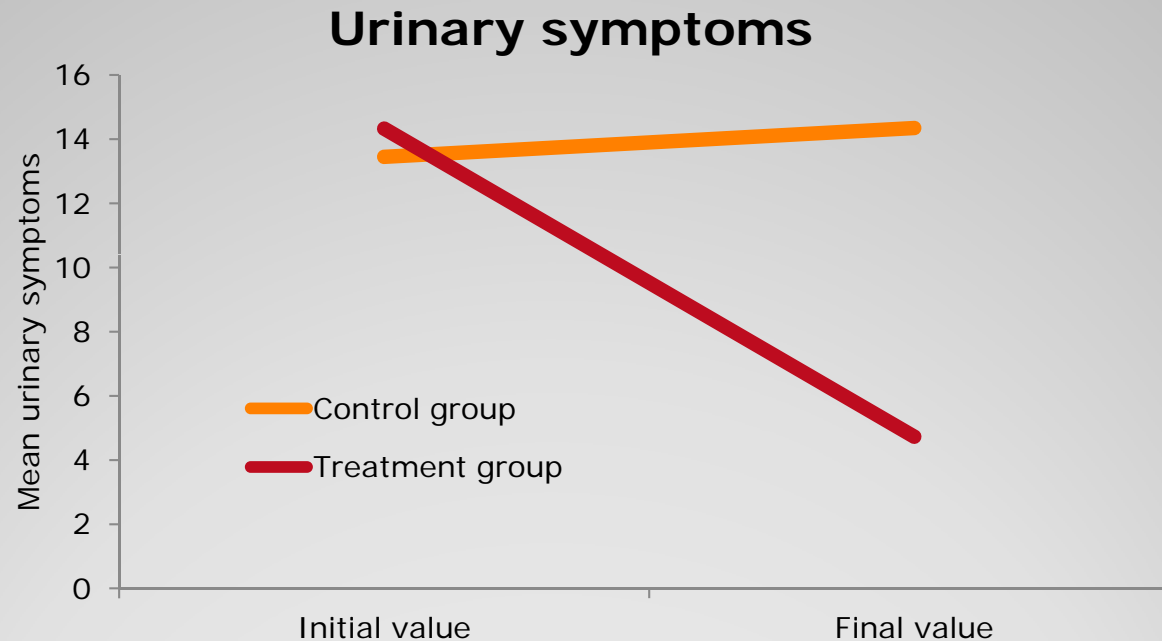

Supervised by  
Professor Ivan Aghajanyan  
Head Urologist of Armenia

Conducted at the Mikaelyan  
Institute of Surgery, Yerevan  
State Medical University, 9  
Asratian St, Yerevan, 0052,  
Armenia

Dynamics of some changes,  
see below

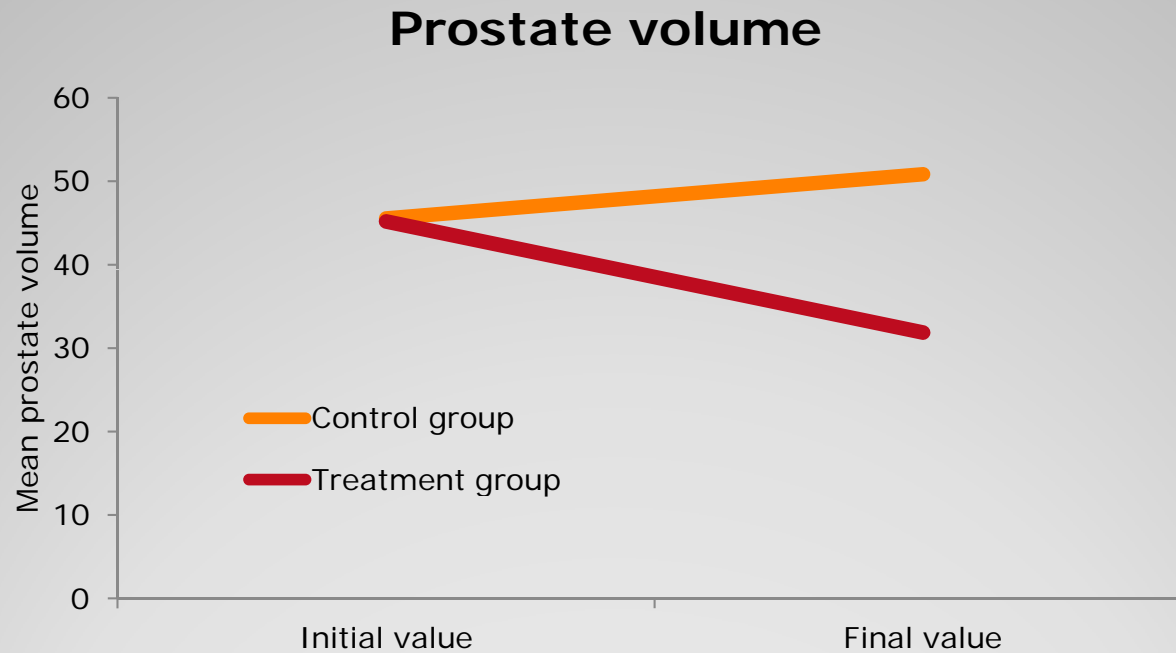

# Clinical Trial on BPH: The dynamics of the urinary symptoms in 124 men with BPH

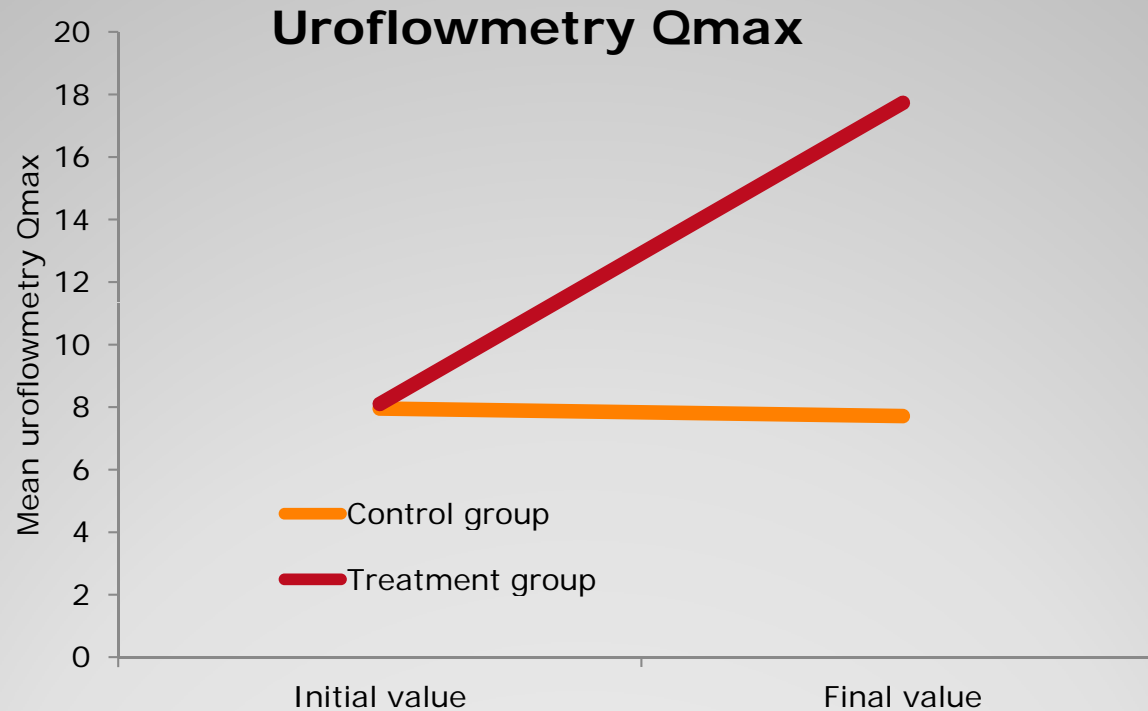

The treatment with Dr Allen's Device significantly decreases urinary symptoms.

# Clinical Trial on BPH: The dynamics of the prostate volume in 124 men with BPH

The treatment with Dr Allen's Device significantly reduces enlarged prostate volume.

# Clinical Trial on BPH: The dynamics of uroflowmetry Q-max index in 124 men with BPH

The treatment with Dr Allen's Device significantly increases uroflowmetry Qmax index.

# Advantages of Dr Allen's Device and Thermobalancing Therapy

- Effective
- Non-invasive
- Cause no side effects
- Easy to use
- No hospitalisation
- Low cost solution

## Conclusion:

The results of the clinical trial on BPH has shown that Thermobalancing therapy / Dr Allen's Device is able to improve health and quality of life of men with BPH.
